

Exploring PDBe with Pinterest

1. Login to pinterest
2. Find PDB Art

3. Search explore the boards - find one of interest to you

(Eg Ivermectin)

Your board of interest: _____

Your PDB Code: _____

Eg. 3RI5

Source organism : _____

4. Explore your PDB entry in 3D

Go to 3D Visualisation

Under “polymer visual” select color by:

1. entity ID

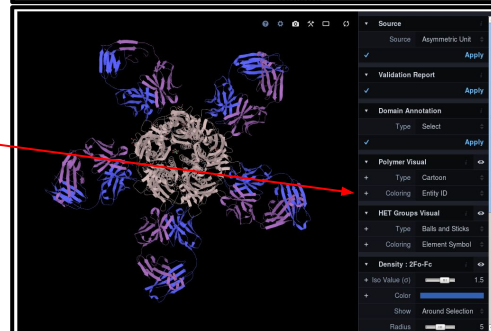

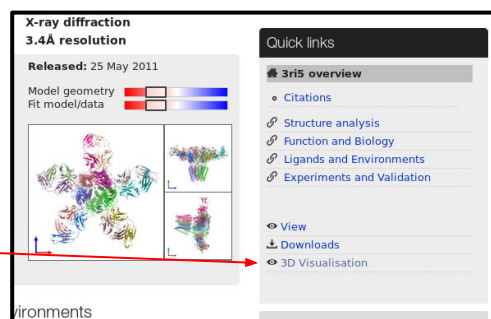

2. chain ID

How many chains build it: _____

How many different chains does it have: _____

5. Look back at Pinterest

What is the function or interesting property of this protein?

What does this structure tell you about this protein? (clue: check the title of the PDB entry)
